Alexander Angelov was unanimously elected as the President of the Sofia District Court (SRC). He received the support of all members of the Judicial College, Praven Svyat reported.

So after the first attempt to elect a head of the SRC failed due to a lack of candidates and months after the resignation of Metodi Lalov, he had an interim leadership, today one candidate united all members of the Judicial College.

His rival for the position was Petar Savchev, who did not receive a single vote in his support. However, he stated that he remains confident that he contributed to the election of his colleague by ensuring a competitive procedure./vevesti.bg
